Workshop goals:

To provide some reasons for using a variety of teaching strategies when teaching English to young learners. **Why?**

To show how to use some teaching strategies that consider different young learners' learning needs, developmental levels, and experiential backgrounds. **How?**

Why using a variety of teaching strategies when teaching English to young learners?

When we focus on the social and emotional aspect of working together on a science, math, literacy activity, we create a balanced experience that helps children in all aspects of development.

-Ellen Booth Church

Music and Early Childhood

“Exposure to music from an early age appears to affect the organization of the central nervous system, making it a precious tool for early childhood educators.”

~Dr. Frances H. Rauscher, University of California~
